

## SOFFIO SELF-DRYING WAX

We suggest to use this product when a 3-brushes arch plant or a washing tunnel is available, because these working systems allow a longer dwell time for the wax action.

### INSTRUCTIONS FOR USE

Plants with metering pumps: Use the product as it is and suck 10 - 15 g per car-

Plants with Venturi system: Prepare a 1:25 solution in water then adjust sucking in order to use approximately 400 g of product per car.
